Dimah Omar Aloufi

Jeddah, Saudi Arabia | +966500818350 | deemaoaloufi@gmail.com | LinkedIn | GitHub | Portfolio

Objective

Software Engineering graduate with experience in building and testing software applications, applying SDLC practices, version control, and problem-solving skills, seeking an opportunity to contribute to the development of reliable, maintainable software solutions in a professional environment.

Education

Bachelor of Software Engineering | University of Jeddah | Graduated August 2026

GPA: 4.93/5.0

Projects

Lamie - لامع (Graduation Project) | .NET, REST APIs, LLM APIs, Unity | 2025 – 2026

- Developing an AI-powered, game-based talent discovery platform for children (ages 6–9) using MVC architecture
- Built a .NET backend with RESTful APIs for tracking gameplay data and user progress
- Applied stealth assessment by analyzing behavioral metrics (accuracy, response time, interactions)
- Integrated LLM APIs to generate personalized insights and recommendations
- Followed Agile (Scrum) using Jira for sprint planning and task management

KidCoin | Flutter, Dart, Firebase | 2024

- Developed a cross-platform mobile app to promote financial literacy for children
- Implemented Firebase for real-time database, authentication, and cloud storage

Certifications & Hackathons

Certifications:

.NET Full-Stack Development | Tuwaiq Academy | 2025

Software Quality Assurance Testing | Tuwaiq Academy | 2025

Hackathons & Conferences:

KAU Robocon - Robotics & Inventions Exhibition | 2025

Avithon Hackathon - Aviation (GACA) | 2025

Skills

Programming Languages: Java, Python, JavaScript, C#, Dart, HTML5, CSS3

Frameworks & Libraries: Flutter, .NET

Databases & Cloud: Firebase, MySQL, SQL Server

Tools & Platforms: Git, GitHub, Jira, Visual Studio, IntelliJ IDEA, Figma, Postman, Junit, xUnit

Methodologies & Practices: Agile, SDLC, STLC, User Stories, Test Case Design, RESTful APIs, OOP, MVC, Design Patterns

Languages

Arabic (Native), English (Fluent)
